PayForIt

By PaySchools

PayForIt (PFI) is a secure, web-based solution that lets schools and school districts easily manage funds and fee collection online. PFI moves you toward becoming a cashless school and away from messy in- school cash handling. By streamlining fee collection, your school can get paid quickly and easily.

Key Capabilities:

Powerful

- Full-featured web-based system
- Parents can use the free PayForIt App on Android or iOS to manage accounts, make lunch payments, and view their transaction histories
- Collect fees for field trips, sports, clubs, test registration, after school programs, and more

Flexible

- Pay where and when you want
- Give parents and guardians multiple payment options to increase your chances of collecting funds
- District and school staff can add and edit student and parent information

Accurate

- Easily track student payment status across departments
- Assign specific fees to students for more accurate collection and less confusion
- Accurately report on fee collection

Secure

- PCI compliant. All data and credit card information is encrypted and stored in a secure location

Advantages for your District:

Easy to Use

- Parents can pay for school lunch and activity fees quickly, easily, and securely online
- Easily check account balances online
- Manage multiple student accounts from a single portal – even if those students attend different schools
- Easily manage school payment accounts from desktop or mobile

Convenient

- Receive email notifications of low balances
- Make partial fee payments
- Set accounts to automatically replenish as needed

Detailed

- Review a student's purchase history for the past 30 days
