Streamlining Means Cont.

- Reporting
- Access
- Collection of Unpaid/Overdue items
- Community Fundraising
- Pre-Sales
- Specialization
- Credit Card Acceptance
- Control
- And The List Keeps Growing...

Trends in Online and Mobile payments

- **Demand** – Two-thirds of consumers prefer to use credit cards.²
- **Convenience** – Allowing customers to pay for anything, any time, and from any device provides a significant convenience to today's busy parents – who typically don't get to focus on these types of transactions until after normal school hours
- **Less Risk for Consumers** – Consumers aren't liable if a fraudulent or erroneous charge hits their credit card account
- **Safer Money-Handling** – Reduce the risk of sorting, counting & transporting cash
- **Increased Purchasing** – consumers spend 12 – 18% more when paying with credit cards compared to cash.³
- **Technology reduces risk** – driven by new security technology and government regulation, paying with credit cards is becoming safer
